EMPIRE STATE POSTAL HISTORY SOCIETY

FORWARD

This publication was authorized in March 1973, when members were asked to compile the totals for their special counties using *Federal Post Offices of New York State 1792-1969* published by the Society in 1970 as their guide.

These totals were forwarded to the Secretary of the Society. When returns began to slow down, the work was turned over to me for completion, editing and preparation for publication.

In February 1978, serialization began in our bi-monthly *Bulletin*, with the final installment issued October 1979.

Thanks, too, to the Publication Committee headed by past president William A. Seifert, Jr. for arrangement made by it to place this effort into a complete volume.

Slight discrepancies may be noted between the totals in this publication and those obtained from other sources, due to less than perfect early records. The county lists omit one office- Bronx- which was established October 2, 1962. However, state totals 1962-1969 have been increased to include this office.

[Note from the editor concerning the second printing (2008).]

A second printing of this publication was authorized at a Regional Meeting of the Society at Cover Mania on February 16, 2008.

The original publication was 36 pages of tables. In order to condense this, the Editor chose to abbreviate the county names using those abbreviations that were used by Kay and Smith in *New York Postal History: The Post Offices and First Postmasters from 1775 to 1980*. They are as follows:
